

I HAVE BEEN HEARING ALOT ABOUT THE BROAD BAND OVER POWER LINES. THE INFORMATION I HAVE GAINED INDICATES THIS WILL CAUSE SO MUCH RF INTERFERANCE OVER AMATEUR RADIO BAND THE RECEPTION OF AMATEUR RADIO WILL BECOME NON EXISTANCE. THE FCC NEEDS TO CONSIDER THE PUBLIC SERVICE THE AMATEUR RADIO OPERATORS ARE INVOLVED IN. WITH THIS MUCH INTERFERANCE THIS PUBLIC SERVICE WILL NOT BE POSSIBLE.

IF THIS BROAD BAND OVER POWER LINES CONTINUE THE POWER COMPANIES AND ANY OTHER COMPANIES INVOLVED NEED TO USE SOME KIND OF FILTERS TO STOP THAT INTERFERANCE.

THANK YOU
